AVER™

ORBIT SVC SERIES

Use an AVer multipoint video conferencing system with Embedded MCU (Multipoint Control Unit) to host and participate in multisite video conferences with SIP/H.323 and Skype for Business support 16 site video conferencing devices.

ADVANCING THE FUTURE OF UNIFIED VIDEO COMMUNICATION – INTEGRATION OF **WebRTC**, **Skype for Business**, **SIP** AND **H.323**

The SVC500 now comes equipped with AVer Omni-Protocol Support for WebRTC, Skype for Business, SIP, and H.323, providing users with more diverse and easy to use collaborative communication possibilities. In addition to Omni-Protocol Support, the SVC is capable of receiving, sharing, and streaming content across all of its connection protocols.

SUPPORTS DUAL-CAMERA / DUAL-PRESENTATION

More options are available on the SVC500. Now, you can choose to show the 1st camera, the 2nd camera, or both. The SVC500 can also accept input from multiple sources. With two input sources available on the codec, users can choose to use HDMI, DVI/VGA, or both at the same time. The SVC500 is capable of providing an unparalleled video conferencing experience!

RTMP FOR LIVE VIDEO STREAMING

Live streaming functionality is ready in SVC500. You could live stream video conferencing, presentation, speech, lecture, etc. with an easy setup. Furthermore, SVC500 thinks one step ahead the vital recording function is also just a click away.

BUILT-IN 32G RECORDING STORAGE CAPACITY

No more fumbling around for a USB drive when you need to record a meeting the SVC500 is equipped with 32 GB of internal storage. In addition, iSCSI functionality is also available for cloud upload. You will never have to miss another event !

SUPPORTS LICENSE UPGRADE UP TO 16 SITES

Users can take advantage of our license upgrade program to expand up to 16 sites. The system can be expanded easily to meet your company's growing communication needs.

PROFESSIONAL AUTO TRACKING CAMERA

The **AVer PTC500** is the ideal professional tracking camera for all kinds of applications. Boasting a powerful **PTZ** camera with **30X optical zoom**, it can track and film moving people or objects even if other people cross through its field of vision. It also features a wide-angle camera that provides a panoramic view for conveniently previewing the whole space. Users can set up through AVer's AcuControl software, which offers an intuitive interface with a variety of precise setup options. With its market-leading quality and customizability, **PTC500** creates engaging video for **streaming, sharing** and **recording** a variety of activities, such as **lectures, demonstrations, video conferences, speeches**, and more.
