

Safetica

Data Loss Prevention (DLP) Solution

protecting sensitive data from “leaking”

Regulatory Compliance GDPR & PDPA

The world's most valuable resource is no longer oil, but data.

The World Economist Magazine

The cybersecurity in numbers

- Center for Strategic and International Studies (CSIS) noted, Cost of cybercrime globally was over \$600 Billions in 2018
- insiders contributed to 46% of cybersecurity incidents
- Records leaked 4.5 Billion 2019,
36 Billion records 2020
- By 2020, with the global annual cost forecast to be \$2.1 trillion

A blurred background image showing several people in a meeting or conference room, with their hands and faces out of focus. The overall color palette is blue and teal.

Cyber Threats Landscape

Maze Ransomware – New Type Ransomware Attacks

Human-operated ransomware attacks

Maze Ransomware is an even more dangerous attack, because the criminals behind MAZE also have a public website where they post the stolen data of the victims who refuse to pay the extortion fee.

The image shows a dark-themed ransomware payment page. At the top, it displays the name of the victim, 'Thai Beverage Public Company Limited', in orange text, followed by the website URL 'https://www.thaibev.com/'. Below this, there are two orange icons: a person icon next to the text 'admin,' and a key icon next to 'Cryptoransomware,'. The page is divided into sections by horizontal lines. The first section is titled 'Total Info' in white text, followed by contact information: 'Phone: +66 2 127 5555' and 'Address: 14 Vibhavadee Rangsit Rd Chomphon Sub-District Chatuchak District, Bangkok, Bangkok, Thailand'. The second section is titled 'Proofs' in white text, which is highlighted with a red rectangular border. Below this section, the text 'Coming soon' is visible next to a vertical orange line.

Thai Beverage Public Company Limited
<https://www.thaibev.com/>
admin, Cryptoransomware,

Total Info

EQUIFAX

UNDER ARMOUR

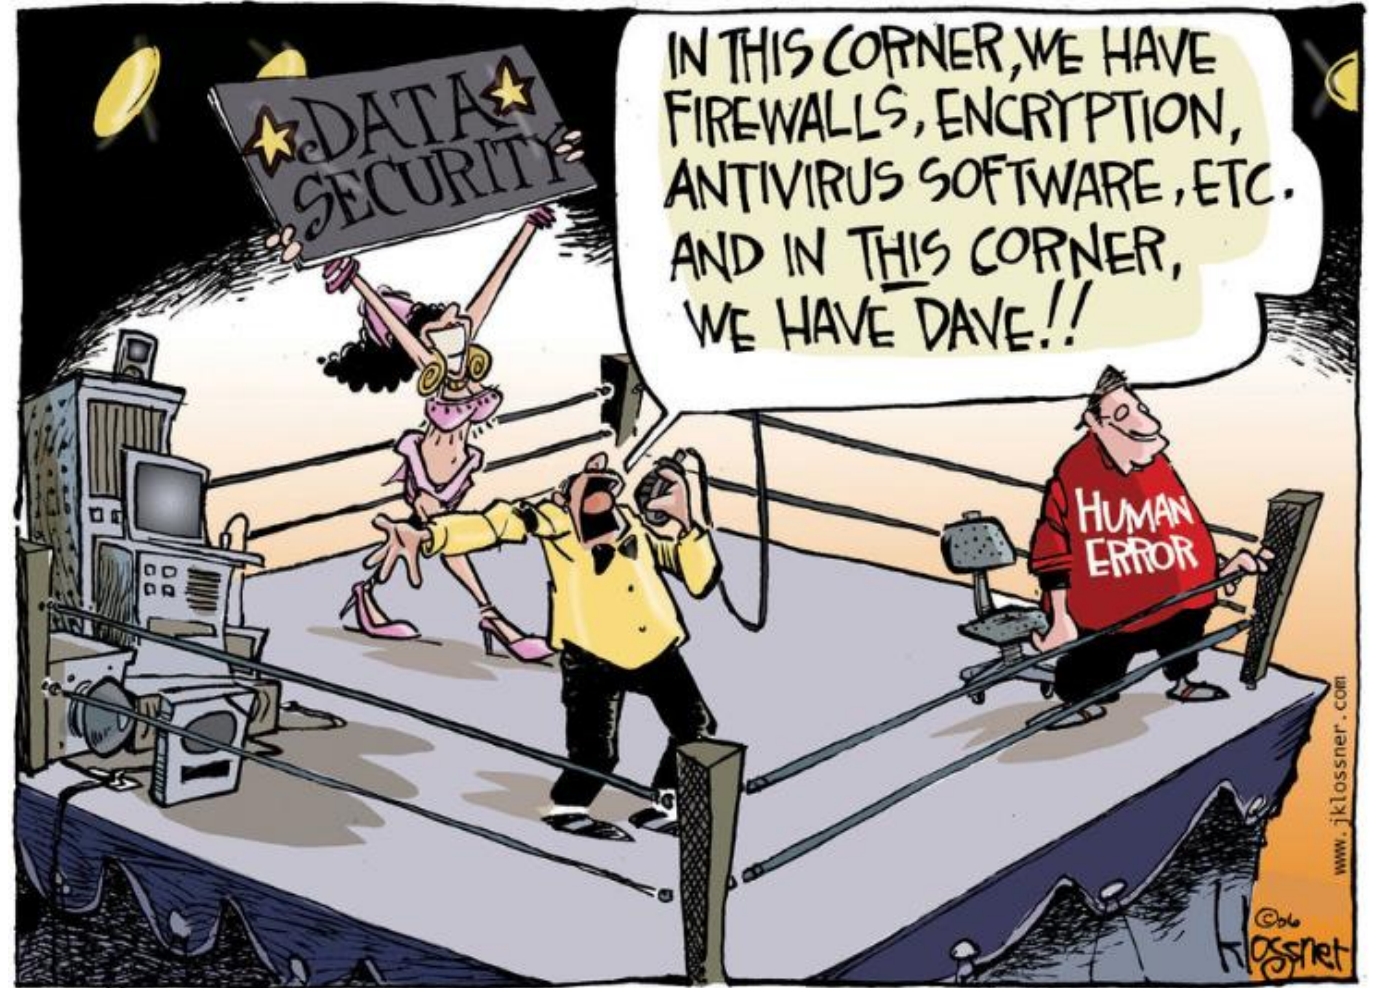

EQUIFAX

- One of major credit check companies in the US
- With overturn over US\$3 billions
- By mistake of one employee nearly 147millions of personal information was exposed
- Fined by US\$700 millions
- “I don’t think we can pass a law that, excuse me for saying this, fixes stupid. I can’t fix stupid.” (*Richard F. Smith former CEO*)

Why?

- 80% Human error
- 20% Deliberate leaks

How? Human error

- 80% of all leaks caused by mistake
- Carelessness
- Lack of IT proficiency
- Lost or stolen devices
- Laziness

Carelessness

Why? Deliberate leaks

- 20% Deliberate leaks
- Start a own business
- Sell data to a competitor
- Use the data as leverage while applying for a new job
- Intentional harm
- Presume the data is theirs

A blurred background image showing a group of people in a meeting or conference room, with their hands and arms visible as they interact. The image is out of focus, emphasizing the text in the foreground.

About Safetica DLP Technologies

Safetica Technologies

- Czech company founded in 2008
- 70+ security experts
- Customers in more than 90 countries
- Bitdefender Technology Alliance
- Gartner-recognized
- Microsoft Silver partner
- Fortinet Technology Alliance Program member
- Tech Accord

Extra modules

Enhance your data protection solutions with extra modules

Safetica UEBA (User and Entity Behavior Analytics)

- Understand real user activity and behaviour in detail.
- Get a comprehensive overview of work time usage.
- Use the insight to secure your data and workspace

Safetica Mobile

- Protect data on mobile devices, e.g. smartphones and tablets.
- Get an overview of mobile device status to identify risks.
- Audit activity both within apps and on websites.

Safetica UEBA

User and Entity Behavior Analytics (UEBA). Module for WebSafetica.

Compatibility on

✓ User activity audit

✓ Behavior analysis

✓ Extended reporting

SELECT

Safetica Mobile

Mobile Device Management (MDM) and workspace security. Module for WebSafetica

Compatibility on

✓ Security audit

✓ Antitheft

✓ Workspace management

SELECT

Why choose Safetica over a competitor?

1. Protects ANY type of data format or application
2. Easy to manage and customize
3. Works on existing infrastructure
4. Admin users can't "kill" Safetica processes
5. High performance – useless resource
6. Best ROI – Return On Investment

Safetica Screen Shot Demo

Safetica - Dashboard

The dashboard interface includes a top navigation bar with the following tabs: DASHBOARD, ALERTS (with a notification badge), REPORTS, WEBSAFETICA, AUDITOR, DLP, SUPERVISOR, MAINTENANCE, PROFILE, and SUPPORT. Below this is a secondary navigation bar with icons for settings, filters, and refresh, along with a layout selector (Overview) and a date range selector (Period: 2/11/2020 - 3/11/2020).

The left sidebar contains a tree view of the organization structure:

- Safetica
 - Unknown
 - Active Directory
 - safetica.co.th
 - Computers
 - Domain Controllers
 - Users
 - HR Department
 - VIP
 - Avenger
 - CLI07
 - CLI10
 - Financial
 - samarts@AVENGER

The main content area is titled "CHARTS" and contains several data visualization widgets:

- Applications: Most active applications**: A pie chart showing the distribution of active applications. The largest slice is Google Chrome (chrome.exe), followed by VMware Workstation (vmw...), Microsoft Outlook (OUTLO...), Safetica Management Con..., Windows Explorer (explorer...), and Remote Desktop Connectio....
- E-mails: Sent/Received e-mails**: A line chart showing the number of logs for sent and received emails over time. The x-axis shows dates from 2/15/2020 to 3/7/2020. The y-axis is "Logs count" ranging from 0 to 60. The "Received" series (orange line with circles) shows significantly higher activity than the "Sent" series (blue line with circles).
- Webs: Top users**: A horizontal bar chart showing the active time in hours for the top users. The user samarts@AVENGER has the highest active time, exceeding 50 hours. The Administrator user has a much lower active time, around 28 hours.
- Webs: Top visited domains**: A horizontal bar chart showing the active time in hours for the top visited domains. The domain cloud.gravityzone.bitdefender.com is the most visited, followed by kingsmanga.net, facebook.com, scorm.servicerocket.io, pan.bitdefender.com, 192.168.1.251, and Others.
- Print: Top printing users**: A widget for identifying the top printing users.
- Print: Print monitor timeline**: A widget for monitoring the print monitor timeline.

On the right side of the dashboard, there is a vertical sidebar with a list of application categories and their associated metrics, including Application..., Application co..., Top blocked a..., Blocked applic..., Top blocked us..., Applications, Runtime of Ap..., Active runtime ..., Top Applicatio..., Top active users, Device cont..., Top actions, Top restriction ..., Top blocked us..., Most used devi..., Top users, Devices, Top users, DLP logs, Top actions, The most activ..., Top operations, File operations..., Top users, and E-mails (with a sub-item for Sent/Received).

Safetica – Auditor Email

The screenshot displays the Safetica Auditor Email interface. The top navigation bar includes Dashboard, Alerts, Reports, Websafetica, Auditor, DLP, Supervisor, Maintenance, Profile, and Support. The main menu shows Functions settings, Applications, Devices, Web sites, Print, Network traffic, Trends, E-mails, and Files. The interface is set to 'Layout: Recent' and 'Period: 3/5/2020 - 3/11/2020'. A sidebar on the left shows a tree view of the organization structure, including Active Directory, safetica.co.th, Computers, Domain Controllers, Users, HR Department, and VIP, with samarts@AVENGER selected.

The main area is divided into 'CHARTS' and 'RECORDS'. The 'RECORDS' section contains a table of email records. A popup window titled 'E-mail detail' is open, showing the details of a selected email. The email information includes the subject 'RF: สอบถาม About Bitdefender for Android', the sender 'songklod@bitdefender.co.th', and the recipient 'product@bitdefender.co.th' and 'sales@bitdefender.co.th'. The attachment is 'Installing GravityZone Security for Mobile Device'.

Safetica – Auditor Files

The screenshot displays the Safetica Auditor Files interface. The top navigation bar includes Dashboard, Alerts, Reports, Websafetica, Auditor, DLP, Supervisor, Maintenance, Profile, and Support. The main menu shows Functions settings, Applications, Devices, Web sites, Print, Network traffic, Trends, E-mails, and Files. The current view is 'Files' with a layout of 'Files Copied/Moved to USB' and a period of '3/5/2020 - 3/11/2020'. The left sidebar shows a tree view of the organization structure, including Safetica, Active Directory, HR Department, and VIP. The main area shows a 'RECORDS' section with a table of file operations. A 'CHARTS' section is also visible but collapsed. A 'Filters' section at the bottom indicates 'No active filters'.

Safetica – DLP Policy

The screenshot shows the Safetica DLP Policy console interface. The top navigation bar includes: DASHBOARD, ALERTS (with a red '5' notification), REPORTS, WEBSAFETICA, AUDITOR, DLP (highlighted), SUPERVISOR, MAINTENANCE, PROFILE, and SUPPORT. Below this is a secondary navigation bar with: DLP policies, DLP logs, Data categories, Zones, Disk guard, Device control, Bitlocker devices, and Bitlocker disks. The left sidebar shows a tree view of the organization structure: Safetica, Unknown, Active Directory (safetica.co.th, Computers, Domain Controllers, Users), HR Department, VIP (Avenger, CLI07, CLI10), Financial, and samarts@AVENGER. The main content area is titled 'WELCOME IN SAFETICA DLP' and contains the following text: 'Safetica DLP is the ultimate shield protecting your confident information. It keeps your data safe not only from unauthorized access, but also from people who have the privileges to access it and work with it. Familiarization with control of console and its outputs can be found in [console wizard](#).' Below this is a 'DATA SECURITY' section with icons for DLP policies, DLP logs, Data categories, Zones, Disk guard, and Device control. The 'OTHER SECURITY FEATURES' section includes icons for Bitlocker devices and Bitlocker disks. A search bar is located at the bottom left of the interface.

Safetica – DLP Blocked Copied&Plate

The screenshot displays a Windows desktop environment. In the background, an Adobe Acrobat Reader DC window is open, showing a document titled "Bitdefender-NGZ-NTSA.pdf". The document content includes a blue header with the word "Network" and a section titled "Real-time br" with the sub-heading "complete th". Below this, there is a section titled "Bitdefender Network Traffic S" which describes how it accurately detects advanced threats by analyzing network traffic in context and facilitates incident response by identifying sophisticated threats at the endpoint. A blue arrow points to the text "with specialized n". At the bottom of the document, it says "By using network traffic as a s" and "immediately as endpoint beha".

In the foreground, a Notepad window titled "Untitled - Notepad" is open. A dialog box is displayed over the Notepad window with the following text:

Application's data access blocked

Notepad

Transferring data out of application **Adobe Acrobat Reader DC** is not allowed.

This action is against a security policy and was logged.

Close

In the bottom right corner of the desktop, a notification bubble is visible with the following text:

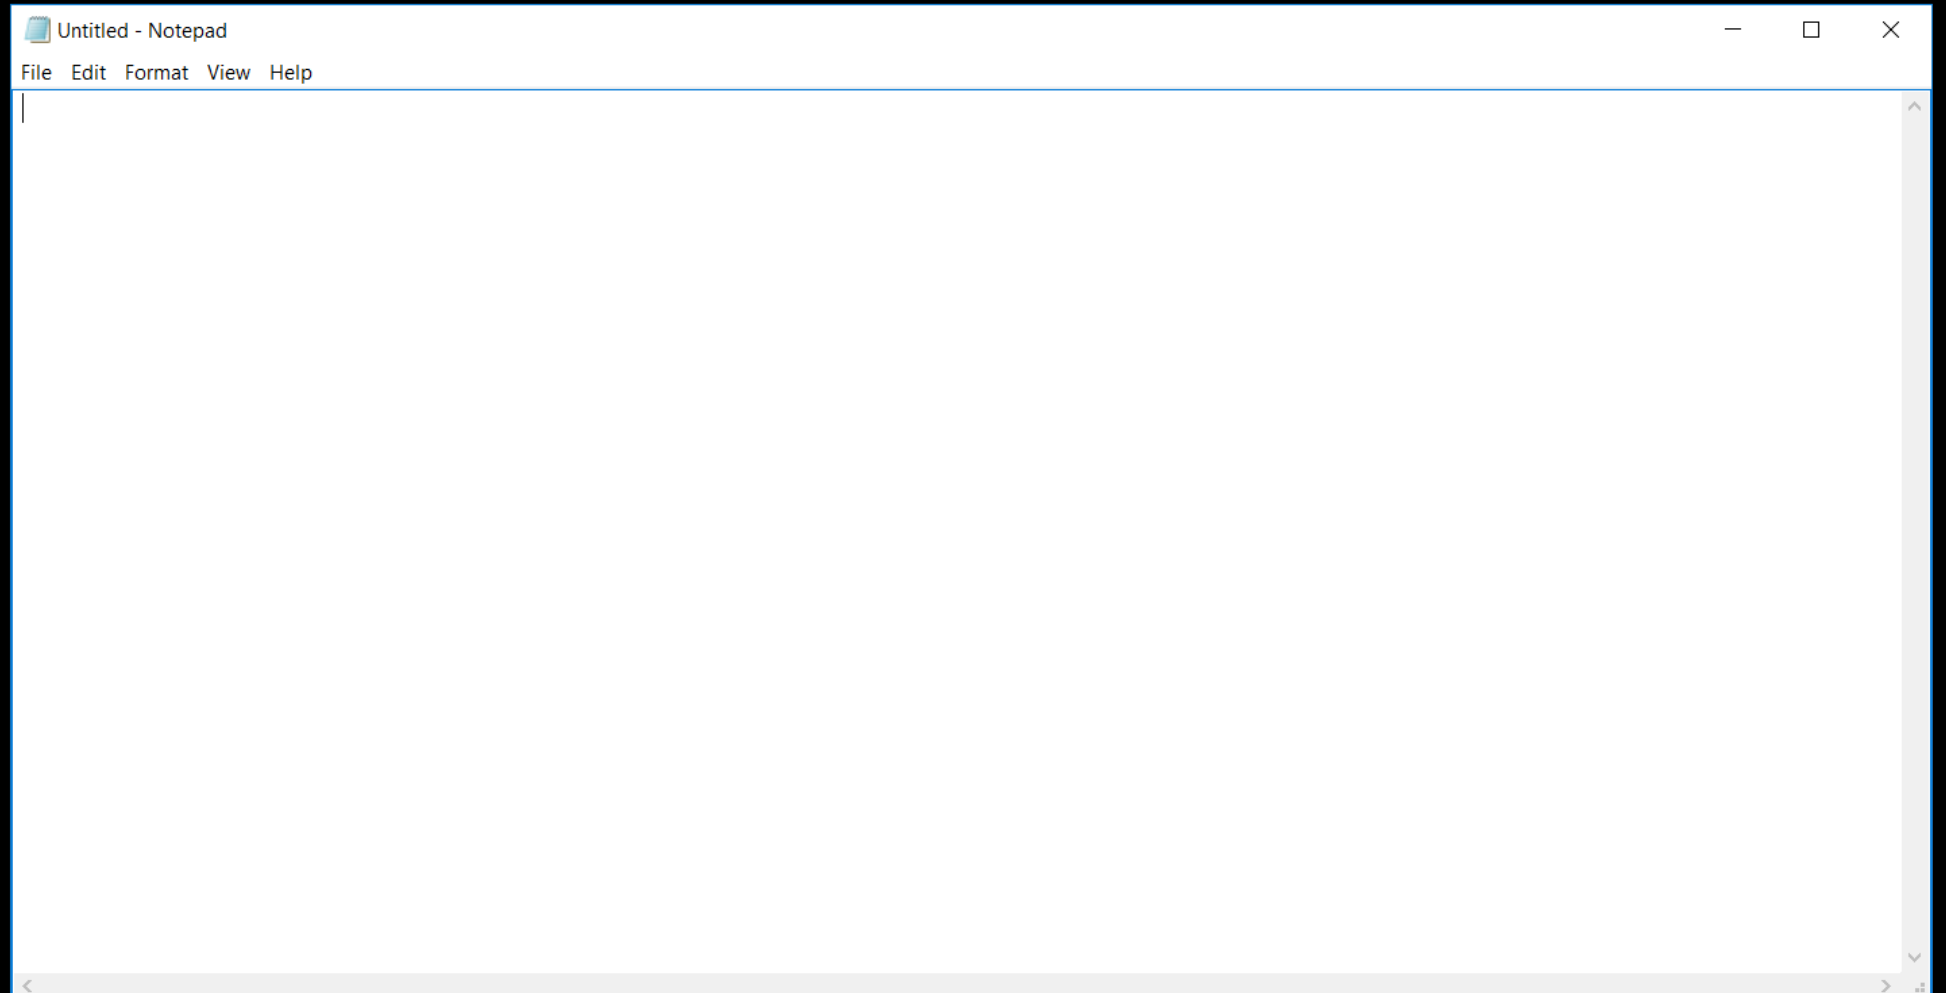

Access to application data was blocked

Application: VMware Tools Core Servic

More information

Safetica – DLP Blocked Screen Capture

Bitdefender-NGZ-NTSA.pdf - Adobe Acrobat Reader DC

Safetica – DLP Blocked Print

The screenshot displays the Adobe Acrobat Reader DC interface. The document title is 'Bitdefender-NGZ-NTSA.pdf'. The main content area shows a slide titled 'Network Traffic Security Analytics' with the following text:

Network Traffic Security Analytics

Real-time breach detection and complete threat visibility

Bitdefender Network Traffic Security Analytics is the enterprise security solution that accurately detects advanced attacks in real-time and automates alert triage to provide context and facilitate incident response. It enables organizations quickly detect and fight sophisticated threats by complementing pre-existing security architecture – network and endpoint – with specialized network-based defense.

By using network traffic as a source of reliable information, NTSA detects breaches immediately as endpoint behavior changes once infected. Detection is effective against

Network Traffic Security Analytics gives IT department full visibility and makes us aware of certain, less desirable things happening in the network.

Leading Automotive Manufacturing Company

An error dialog box is displayed in the center of the screen with the message: 'The document could not be printed.' with an 'OK' button.

In the bottom right corner, a 'Printing blocked' notification is visible, stating: 'Printing blocked. Document: Bitdefender-NGZ-NTSA.pdf. More information'.

The right-hand sidebar of the Acrobat Reader shows various PDF manipulation options such as 'Export PDF', 'Create PDF', 'Edit PDF', 'Comment', 'Combine Files', 'Organize Pages', 'Redact', and 'Protect'.

Safetica – DLP Blocked Web Upload

The screenshot shows the edisk.eu website interface. At the top, there is a navigation bar with links for 'UPLOAD', 'CREDITS', and 'EARN MONEY WITH EDISK'. On the right side, there are links for 'REGISTER' and 'SIGN IN' along with a US flag icon. The main content area features the edisk logo, a search bar, and a central message: 'Share your world eDisk is online storage for your files' accompanied by a woman's image. Below this, there are three upload options: 'Select from disk', 'Upload via FTP', and 'Upload torrent'. The 'Select from disk' option is active, showing a file selection area with the text 'Select or drop file(s) max. 10 GB / file'. A modal dialog box is open in the bottom right corner, displaying a globe icon and the message: 'File upload was blocked File: CV_Samart_Y2019.pdf'. At the bottom of the page, there is a footer with a cookie consent message: 'This website is using file cookie in provided service, personal advertisement and and visit analytics. By using this web you accept this.' and an 'Ok' button. A progress indicator at the bottom left shows 'Uploaded: 0.04 %'.
